

Evan Gary Hirsch

Biography

Evan Gary Hirsch has a passion for experiencing a fun and meaningful life and making people happy along the way. This desire originally led him to pursue an education and subsequent career in hospitality. He continuously delights in relating to people, connecting with them on a personal level, and bringing smiles to their faces. A world traveler to over 25 countries, he has an unquenchable appetite for new ideas and information from many different perspectives.

His appreciation for the vast diversity in people, culture, and an innate love for living, coupled with a willingness to examine his own negative emotions, admit them, and learn from them rather than allow them to dictate his expressions, helps him identify with the core of our humanity, which is to follow our “ultrasocial” nature and love one another rather than be in conflict or competition with one another. This has led him to create a fundamental body of teachings known as Secret Powers of Love, with books and seminar/workshop presentations in development. Evan believes that every brain is programmed to operate in certain ways based on emotions and memories, and that tapping into this deep brain conditioning is the key to changing ourselves, our story, and our world.

Evan’s lifelong pursuit of knowledge has given him an ever-evolving and varied education which continues to enhance his understandings and approach to life. A graduate of Monta Vista High School in Cupertino, Evan has an Associate of Science, Culinary Arts and Hospitality Studies from City College of San Francisco, a Bachelor of Fine Arts, Motion Pictures and Television (with concentrations in acting and screenwriting) from the Academy of Art University, along with various management and skills training certificates. He also completed two years of study at The Meisner Technique Studio of Acting in San Francisco, and was a founding member of The Meisner Technique Professional Studio.

He has been a popular mobile DJ and emcee, performing at weddings and corporate parties, as well as a game show host for live, interactive, corporate team-building events, along with other types of events including raffles and auctions and a few interesting acting gigs. The entertainment career, coupled with his philanthropic endeavors led him to sponsor a non-profit media production house called S.O.U.L. Documentary LLC, an acronym standing for Summer of Unconditional LOVE. The catalog of SOUL includes a short film, a documentary, and multiple episodes of six shows produced, all available on YouTube.

A lifelong lover and collector of music, Evan, who created the persona of The Blue Rocker, is also a musician and prolific songwriter. Self-taught on guitar, bass, and drums, as well as more formal voice training in acting school, he has performed in bands, managed tours for other bands, and has now recorded five albums of material set for release starting in 2024 on which he has played: drums, bass, guitars, vocals, snaps, whistles, percussion, and the rainstick, as well as co-produced the recordings.
