

## Evan Gary Hirsch

Evan Gary Hirsch is a force for change in the world, helping align our human family with our true nature as “ultrasocial” beings, born to collaborate, love one another, and solve problems with ingenuity. From an early successful fifteen-year career in the hotel and restaurant management business, to earning a second degree in motion pictures and television, entertaining others as a professional DJ, and having traveled the world in over 25 countries, he embraces it all with passion and zeal. He holds a degree in hotel/restaurant management, another in acting and screenwriting, as well as advanced training at the Meisner Technique Studio, and other management and skills training certificates. Throughout his life, his appreciation for the diversity in people, culture, and ideas - and an innate understanding of universal love - has drawn him to develop his Secret Powers of Love materials including a book series and seminar/workshop coming in 2025. Through his non-profit media team SOUL Documentary, he helped to produce and star in a short film, a documentary, and multiple episodes of six different shows. Currently focused on his music duo and solo musical works, he has composed, recorded and co-produced five albums worth of material, the first single of which was released on 9/11/23, with much more planned for release in 2024.
